

Please be aware that K-Love serves the Oklahoma area with numerous stations accross the state. I benefit from this service by being able to listen daily regardless of where I am in the state. The effect on the local community if KLove were to be displaced by an LPFM broadcaster providing other programming would be very negative. K-Love provides a family atomsphere which the whole family regardless of age can listen to with fear of what your kids may hear. Unlike watching the superbowl, K-Love can be counted on to come through for a wholesome environment. Please do not allow K-Love to be replaced by any LPFM station.

Sincerely,

Hardy Patton
